

# IVACC NATE

## You have questions. We have answers.

As your healthcare provider, we take you and your family's health seriously. There is a lot of information out there about vaccines, and you may have questions.

### First, thank you.

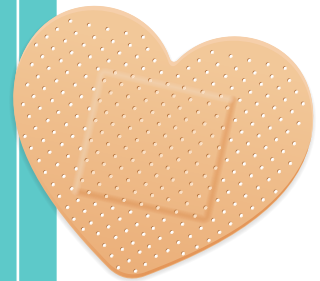

Thank you for having questions - it makes you a good parent.

### Second, we can help.

Our full office team has been trained to help you navigate through your vaccine questions. When you sit down with any of us, we will listen.

### Lastly, we will always be here.

We recognize that you may leave here today with remaining questions. We encourage you to review the materials you leave here with today, and know that we will always help answer your questions so that we can work together to keep your family safe.
